THE ONLY ALTERNATIVE TO NEW TYRES

SINCE 1978

THE ONLY ALTERNATIVE TO NEW TYRES

WHAT IS RETREADING?

Retreading is green and sustainable alternative to new tyres

WHY RETREADING?

RETREADING IS ENVIRONMENT FRIENDLY

Retreading saves 15 gallons of oil on every tyre

Retreading means lesser carbon footprints

Retreading reduces landfills of used casings

RETREADING MEANS SAVINGS

- Retreading costs less than 30% of a new tyre
- Retreading gives as good mileage as a new tyre
- Retreading can reduce CPKM to 1/3rd of a new tyre

ARE RETREADS SAFE?

- Retreads are as safe as a new tyre
- They are widely used by the fleet owners across the globe
- Services of high importance like Ambulances, Fire engines, School buses use retreaded tyres in their operation
- Even the aircrafts use retreaded tyres

HOW TO AVOID FAILURES?

DOs

SELECT THE RIGHT CASING

- Casing removed at TWI
- Casing with no severe damages

SELECT THE RIGHT PRODUCT

- High quality branded tread rubber and other retreading materials

SELECT THE RIGHT RETREADER

- Organised Setup
- Trained workers and audited facility

Don'ts

- Use damaged casing
- Wear tyre beyond TWI
- Under or over inflation
- Poor tyre maintenance
- Use local/ inferior quality retreading materials
- Select a local/ unorganised retreading setup
- Poor workmanship

WHY INDAG?

INDAG – THE PIONEER

Ensuring customer satisfaction, INDAG designs tread patterns for different types of applications. The tread rubber is made of superior quality raw materials and pressed at very high pressure resulting in high performance products both in terms of mileage and tread life.

TECHNICAL EDGE

INDAG uses the most advanced machinery, equipment and raw materials. Our processes are ISO 9001:2015 compliant ensuring optimum performance for each tyre retreaded with INDAG tread rubber. We continuously invest in R&D to develop superior compounds for delivering exceptional products to our customers.

SUPERIOR COMPOUND

INDAG treads are made up with superior and unique compounds which ensure resistance to penetrations, cuts and punctures, thereby reducing downtime and ensuring mileage equal to and at times better than new tyres.

RETREADING PROCESS CONSULTANCY

Pioneering retreading in India, INDAG provides its retreaders with an international retreading process consultancy to ensure high performance for every tyre retreaded with INDAG Tread Rubber

RETREADING MACHINERY CONSULTANCY

INDAG has a vast expertise in retreading machinery accumulated over 40 years on which it provides consultancy services to its retreaders. INDAG educates retreaders to have latest machinery and capacity installed at their workshop.

SAFETY & RELIABILITY

INDAG'S retreading material provides longer tread life. We design treads for all types of applications. INDAG treads are made of high quality compounds which gives the tyre better traction with the surface and makes a strong grip with the road providing a safe and secure ride.
