

EV KA SACCHA SAATHI ZREV

The Most Trusted Re-tread

Since 1978

ENHANCED SAFETY & STABILITY

Sipe at center & corner groves provide better Road Grip on wet & dry surfaces.

ENERGY EFFICIENT

"STARIGHT GOOVES" contributing significantly reduced rolling resistance, which is crucial for energy efficiency in EVs.

EV LOAD COMPATIBILITY

Designed with a higher footprint to support the added weight from EV battery packs, ensuring better weight distribution and road grip.

LOW NOISE TREAD DESIGN

Perfect match for silent electric buses
