ANNEXURE-VI

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

The tyre retreading industry witnessed a slow down due to several headwinds resulting from continuing shortage of natural rubber, slower GDP growth leading to weak truck utilization levels, resulting in slow revival of tyre repair and replacement. Q4FY2020 witnessed an unexpected black swan event – COVID 19 pandemic, one of the biggest global health and economic crisis in recent decades.

OPPORTUNITIES AND THREATS

The government had imposed curbs on imports of certain new tyres in a move to promote domestic manufacturing, which will benefit the entire value chain as the domestic tyre production will get a flip. India has the potential to lead in manufacturing of tyre and retreading material, as the world is looking for alternatives to China since global supply chain disrupted due to COVID-19.

Continuing impetus from Government on infrastructure and road development, coupled with earlier reforms like demonetization, GST, stringent overloading restrictions and new axle norms will lead to faster travel and improved productivity of fleet operators. This unlocks humongous opportunity to the tyre and retreading industry.

Fragmented, small and unorganized retreading network across the country will continue to be a threat to the retreading industry, as fleet operators are saddled with poor quality retreaded tyres, diminishing their faith in retreading. The formalization of the economy and this industry is a great opportunity in medium to long term.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

Indag has only one business segment, that is, manufacture of precured tread rubber (PTR) and allied items, hence segment wise reporting is not required.

OUTLOOK

Retreading:

Demand for retreading of tyres depends on the usage of the commercial vehicles which in turn depends upon the health of economy, which we hope to come back to normalcy soon. The heavy commercial vehicles' sales nosedived to -42% in FY20, while bus and truck tyre production dropped by 14%, reflecting the difficult financial times for the trucking industry.

Difficult financial conditions are encouraging the fleet owners to increase the share of retreading. Tremendous development in road infrastructure and GST implementation have also improved the average running per day of vehicles, increasing the demand in tyre replacement and retreading industry. With better road infrastructure and GST implementation, the average running of vehicles has gone up which in turn has improved the fleet utilization. This is having a direct growth impact on retreading demand. At present radicalization has reached nearly 53% and is improving the dynamics of retreading, multiplying number of retread opportunities to 2-3 times per life cycle.

Retreading offers an compelling economic value proposition to the fleet operators by providing the life of the new tyre at one third cost and is therefore poised to improve its share, mirroring developed economies.

Electric Mobility:

Government of India has been relentlessly working to make India self-reliant to encourage EV and Hybrid electric vehicles. During the year, Sun Mobility EV Infra (P) Limited, JV Company rapidly grew the network of swapping stations and deployed smart batteries PAN India.

RISKS AND CONCERNS

The company has laid down a well defined risk management mechanism covering the risk mapping and trend analysis, risk exposure, potential impact and risk mitigation process. A detailed exercise is being carried out to identify, evaluate, manage and monitor various risks. The Audit Committee and the Board periodically review the risks and suggest steps to be taken to manage/ mitigate the same through a properly defined framework.

During the year, a risk analysis and assessment was conducted and no major risks were noticed, which may threaten the existence of the company.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate internal control systems and procedures designed to effectively control the operations at its Head Office, Plants and Depots. The internal control systems are designed to ensure that the financial and other records are reliable for the preparation of financial statements and for maintaining assets. The Company has well designed Standard Operating Procedures.

Independent Internal Auditors conduct audit covering a wide range of operational matters and ensure compliance with specified standards. Planned periodic reviews are carried out by Internal Audit. The findings of Internal Audit are reviewed by the top management and by the Audit Committee of the Board of Directors.

Based on the deliberations with Statutory Auditors to ascertain their views on the financial statements including the Financial Reporting System and Compliance to Accounting Policies and Procedures, the Audit Committee was satisfied with the adequacy and effectiveness of the Internal Controls and Systems followed by the company.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial statements have been prepared in accordance with the requirement of the Companies Act, 2013 and applicable Accounting Standards issued by the Institute of Chartered Accountant of India.

INDEPENDENT AUDITOR'S REPORT

To The Members of Indag Rubber Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Indag Rubber Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2020, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2020 and the profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

The key audit matters

How the matter was addressed in our audit

1) Investments

The Company held current and non-current investments aggregating to Rs.8,241.82 lakhs as on 31st March 2020.

We have determined that fair valuation of investments was a key audit matter, specially relating to investments in mutual funds amounting to Rs.3,195.24 lakhs and investment of Rs.1,383.43 lakhs in SRL 142 Holdings Ltd. (SRL) by way of fully paid up compulsorily convertible preference shares. SRL has interest in oil production and exploration Company in Nigeria.

The oil industry is exposed significantly to macroeconomic factors such as commodity prices, currency fluctuations, interest rate risk and political developments. The assessment of commercial viability and technical feasibility of exploration oil and gas is complex and includes a number

Our audit procedures on investments included:

- In the case of investments in mutual funds amounting to Rs.3,195.24 lakhs, we verified the fair value as on 31st March, 2020 with the net asset value of the units given in the statement of accounts received from the mutual funds.
- Since the investments in mutual funds are carried at fair value, the uncertainty arising out of Covid-19 is already factored in to a large extent.
- In the case of fair valuation of investments held in SRL 142 Holdings Limited, which in turn has invested in a Nigerian oil company, we tested the valuation prepared by the management with reference to estimated oil resources, market price of crude oil and

The key audit matters

of significant variables. (Refer Notes 2.16(ii), 5, 11 and 44 to standalone financial statements).

How the matter was addressed in our audit

gas prevailing in the international market, the Indian Rupee to US Dollar exchange rate, assumptions as to future production of oil and gas, capital expenditure to be incurred and contracts entered into by the Nigerian Company.

2) Inventories

The Company held inventories of Rs. 3,694.79 lakhs as on 31st March, 2020.

Given the value of inventories and number of locations, the valuation and existence of inventories was considered to be a key audit matter. (Refer Notes 2.14, 10 and 44 to the standalone financial statements).

We tested the design and effectiveness of controls over the identification of obsolete inventories and obtained an understanding of the Company's process for measuring the amount of write down required.

Although, we did not participate in the year end physical inventories counting due to Covid-19 lockdown, we applied alternate audit procedures to obtain sufficient appropriate audit evidence regarding existence and conditions of inventories. Management feels that there could be certain delay in liquidating the inventories but the fair value at which inventories are carried will be realised.

3) Trade receivables

Management has recognized allowances for credit losses on trade receivables based on specific known facts and circumstances or customers' abilities to pay. The details of trade receivables and expected credit loss allowances have been disclosed in Note 12 (Refer notes 2.16(iv), 12 and 44 to the standalone financial statements)

The determination of recoverability of the trade receivables involves significant management judgment and inherent subjectivity given the uncertainty regarding the ability of the trade receivables to settle their debts. Therefore, determination of expected credit loss allowance was identified as a key audit matter specially under Covid-19 situation.

Our audit procedures included the following:

- Assessed the recoverability of trade receivables with reference to their historical bad debt experience, ageing profiles of the counter parties and historical repayment trends.
- Because of Covid-19 shutdown during the months of April, May and partially in June, 2020, the recoveries of trade receivables might be delayed but carrying amounts are likely to be realized as per management assessment.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report and Corporate Governance Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial

performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud
 or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient
 and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from
 fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions,
 misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our
 opinion on whether the Company has adequate internal financial controls system in place and the operating
 effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143(3) of the Act, we report that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - the standalone balance sheet, the standalone statement of profit and loss including other comprehensive income, standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) on the basis of the written representations received from the directors as on 31st March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2020 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B";
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - h) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer Note 36 to the standalone financial statements;
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 'Report on Other Legal and Regulatory Requirements' of our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
 - (c) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to information and explanations given by the management, the title deeds of immovable properties are held in the name of the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- iv) In our opinion and according to the information and explanations given to us, there are no loans and securities granted in respect of which provisions of Section 185 and 186 of the Companies Act, 2013 are applicable. In our opinion and according to the information and explanations given to us, the Company has complied with provisions of section 186 of the Companies Act, 2013 in respect of guarantees given and investments made.
- (v) The Company has not accepted any deposits from the public.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under Section 148(1) of the Companies Act, 2013, related to the manufacture of products, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) The Company is generally regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of customs, goods and service tax, cess and other material statutory dues applicable to it.
 - b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, duty of customs, goods and service tax, cess and other material statutory dues were outstanding at the year end, for a period of more than six months from the date they became payable. The particulars of dues of income-tax, sales-tax, service tax, duty of customs, excise duty, goods and service tax, value added tax and cess as at 31 March, 2020 which have not been deposited on account of any dispute, are as follows:

Name of the statute	Nature of dues	Amount (Rs. in lakh)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income tax demand	139.15	A.Y.1998-99	Delhi High Court
Income Tax Act, 1961	Income tax demand	16.39	A.Y. 2017-18	CIT (Appeals)

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Indag Rubber Limited ("the Company") as of 31st March, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on, the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements for the year ended 31 March, 2020

1. Corporate information

Indag Rubber Limited (hereinafter referred to as "the Company") is a Public Limited Company incorporated and domiciled in India. The registered office of the Company is located at 11 Community Centre, Saket, New Delhi-110017, India. The Company's CIN is - L74899DL1978PLC009038.

The Company's shares are listed on Bombay Stock Exchange ('BSE'). The Company is engaged in the manufacturing and selling of Precured Tread Rubber and allied products.

These financial statements were approved by the Board of Directors and authorised for issue on June 26, 2020.

2. Significant accounting policies

2.1 Statement of compliance and basis of preparation and presentation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standard) (Amendment) Rules, 2016. The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified under Section 133 of the Companies Act, 2013 ("the Act").

The financial statements have been prepared on historical cost basis except for certain financial instruments which are measured at fair value at the end of each reporting period as explained in the accounting policies below.

The financial statements of the Company are presented in Indian Rupees (Rs.) and all values are rounded to the nearest lakh, except when otherwise indicated.

With effect from 1st April, 2019, Ind AS 116 – "Leases" (Ind AS 116) supersedes Ind AS 17 – "Leases". The Company has adopted Ind AS 116 using the Modified retrospective approach. The adoption of the standard did not have any significant impact on the financial statements.

2.2 Basis of classification of Current and Non-Current

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets or liabilities.

2.3 Use of estimates

i) The preparation of these financial statements, in conformity with the recognition and measurement principles of Ind AS, requires the management of the Company to make judgments, estimates and assumptions that affect application of accounting policies and the reported amount of assets and liabilities, disclosures relating to contingent assets and liabilities as at the date of the financial statements and the reported amounts of income and expenses for the periods presented. Actual results may differ from these estimates. Accounting estimates could change from period to period.

Estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Changes in estimates are reflected in the financial statements in the period in which changes are made, if material, their effects are disclosed in the notes to the financial statements.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of valuation of deferred tax assets, property plant and equipments, impairement of investments, provisions and contingent liabilities.

ii) Uncertainty relating to the global health pandemic Covid-19

The Company has made assessment of its liquidity position for the next year and the recoverability and

carrying value of its assets comprising property, plant and equipment, investments, inventory and trade receivables. Based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 which may be different from that estimated as at the date of approval of these financial statements. The Company will continue to closely monitor any material changes arising of future economic conditions and impact on its business.

2.4 Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The following specific criteria must also be met before revenue is recognised:

i) Sale of goods

Revenue from sale of goods is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. Revenue is recognised when collectability of the resulting receivables is reasonably assured.

ii) Sale of services

Revenue from sale of services is recognised as and when the services are rendered and the stage of completion can be measured reliably.

iii) Dividend and interest income

Dividend income from investments is recognised when the right to receive dividend is established by the reporting date.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, with reference to the principal outstanding and at the effective interest rate, which is the rate that exactly discounts estimated future cash receipts over the expected life of the financial asset to that asset's net carrying amount on initial recognition.

iv) Export Benefits

Export entitlements in the form of Duty Drawback Scheme, Focus Product Scheme and Merchandise Export from India are recognized in the statement of profit and loss when the right to receive credit as per the terms of the scheme is established in respect of exports made and when there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

2.5 Leases

The Company, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

For short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term

2.6 Foreign currency

These financial statements are presented in Indian rupees (Rs. / lakh), which is the Company's functional and presentation currency.

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Foreign currency denominated monetary assets and liabilities are re-measured into the functional currency at the exchange rate prevailing on the balance sheet date.

Exchange differences are recognized in the Statement of Profit and Loss.

2.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

Borrowing costs include interest and amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

2.8 Employee benefits

(i) Retirement benefit in the form of provident fund (where contributed to the Regional PF Commissioner) is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

Retirement benefits in the form of provident fund contributed to the Trust set up by the employer is a defined benefit scheme and is provided for on the basis of actuarial valuation of projected unit credit method made at the end of each financial year. The difference between the actuarial valuation of the provident fund of employees at the year end and the balance of own managed funds is provided for as liability in the books by the Company.

- (ii) Gratuity liability under the Payment of Gratuity Act is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. The gratuity plan has been funded by policy taken from Life Insurance Corporation of India. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of
 - (a) When the plan amendment or curtailment occurs; and
 - (b) When the entity recognises related restructuring costs or termination benefits.
- (iii) Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.
- (iv) The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

2.9 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.10 Property, plant and equipment

Property, plant and equipment, capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciated them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of respective asset if the recognition criteria for a provision are met.

An item of Property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the assets.

Gains or losses arising from disposal or retirement of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

2.11 Depreciation on property, plant and equipment

Leasehold land is amortised on a straight line basis over the period of lease i.e., 95/99 years. Freehold land is not depreciated.

Depreciation on property, plant and equipment including stores and spares transferred from inventory is calculated

on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management, which are equal to the useful lives prescribed under Schedule II to the Companies Act, 2013.

Estimated useful lives of the assets are as follows:

S. No.	Assets	Useful lives in years
i.	Buildings	Ranging from 5 to 60 Years
ii.	Plant and equipment	Ranging from 3 to 15 Years
iii.	Furniture and Fixtures	10 years
iv.	Office equipment	Ranging from 3 to 6 Years
V.	Vehicles	Ranging from 8 to 10 Years

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at the end of each reporting period with the effect of any change in estimate accounted for on a prospective basis.

2.12 Intangible assets

Intangible assets purchased are measured at cost as of the date of acquisition less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licenses which are amortised over license period which equates the useful life ranging between 2-4 years on a straight-line basis or actual life of license whichever is earlier.

2.13 Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated.

Impairment losses, including impairment on inventories, are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.14 Inventories

Inventories are valued as follows:

Raw materials,	stores	and	spares	and	packing
materials					

Work in progress and finished goods (own manufactured)

Traded goods

Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated, are expected to be sold at or above cost. Cost is determined on moving weighted average method.

Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on monthly moving weighted average basis.

Lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion and estimated costs necessary to make the sale.

2.15 Provisions

Provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.16 Financial instruments

i. Classification, initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets other than equity instruments are classified into two categories: financial assets at fair value through profit or loss and at amortised cost. Financial assets that are equity instruments are classified at fair value through other comprehensive income. Financial liabilities are classified into financial liabilities at fair value through profit or loss.

Financial instruments are recognized on the balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Initially, a financial instrument is recognized at its fair value. Transaction costs directly attributable to the acquisition or issue of financial instruments are recognized in determining the carrying amount, if it is not classified as at fair value through profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

Financial assets at amortised cost: Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortized cost using the effective interest rate method less any impairment losses.

Equity investments at fair value through other comprehensive income: These include financial assets that are equity instruments and are irrevocably designated as such upon initial recognition. Subsequently, these are measured at fair value and changes therein are recognized directly in other comprehensive income, net of applicable income taxes.

Dividends from these equity investments are recognized in the Statement of Profit and Loss when the right to receive payment has been established. When the equity investment is derecognized, the cumulative gain or loss in equity is transferred to retained earnings.

Financial assets at fair value through profit or loss: Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs that are directly attributable to the acquisition of financial assets, which are measured at fair value through profit or loss, are immediately recognised in profit or loss.

Cash and cash equivalents: Cash and cash equivalents comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Equity instruments: An equity instrument is any contract that evidences residual interests in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Financial liabilities at fair value through profit or loss: Derivatives, including embedded derivatives separated from the host contract, unless they are designated as hedging instruments, for which hedge accounting is applied, are classified into this category. These are measured at fair value and changes in fair value are recognized in the Statement of Profit and Loss.

Financial guarantee contracts: These are initially measured at fair value and are subsequently measured at the higher of the amount of loss allowance determined or the amount initially recognized, less the cumulative amount of income recognized.

Other financial liabilities: These are measured at amortized cost using the effective interest rate method.

ii. Determination of fair value:

The fair value of a financial instrument on initial recognition is normally the transaction price (fair value of the consideration given or received). Subsequent to initial recognition, the Company determines the fair value of financial instruments, that are quoted in active markets, using the quoted bid prices (financial assets held) or quoted ask prices (financial liabilities held) and using valuation techniques for other instruments. Valuation techniques include discounted cash flow method and other valuation models.

iii. Derecognition of financial assets and financial liabilities:

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

Financial liabilities are derecognised when these are extingushed, which is when the obligation is discharged, cancelled or expired.

iv. Impairment of financial assets:

The Company recognizes a loss allowance for expected credit losses on a financial asset that is at amortized cost. Loss allowance in respect of financial assets is measured at an amount equal to life time expected credit losses and is calculated as the difference between their carrying amount and the present value of the expected future cash flows discounted at the original effective interest rate.

v. Derivative financial instruments

The Company does not hold any derivative and embedded derivative financial instruments.

2.17 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability, if market participants would take those characteristics into account, when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

2.18 Segment reporting

The Operating Segment have been reported in a manner consistent with the internal reporting provided to the Chief Financial Officer and the Chief Executive Officer who are the Chief Operating Decision Maker (CODM). The Company is engaged in the manufacturing of the Precured Tread Rubber, Bonding Repair and Extrusion Gum and Rubber Cement, which are used for retreading of tyres and providing tyre retreading service. These products do

not have any different risk and returns and thus the CODM performs review based on one operating segment.

The company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the company as a whole.

2.19 Investments in subsidiary & Joint Venture

Investments in subsidiary & Joint Venture are measured at cost as per Ind AS-27 – Separate financial statements.

2.20 Earnings per share

Basic earnings per share are computed by dividing profit/loss for the period by the weighted average number of shares outstanding during the year. Partly paid up shares are included as fully paid equivalents according to the fraction paid up. Diluted earnings per share are computed using the weighted average number of shares and dilutive potential shares, except where the result would be anti-dilutive.

2.21 Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/ subsidy will be received.

Where the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is reduced from the respective cost of an asset and accordingly depreciation is calculated on reduced amount

2.22 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

2.23 Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Notes

(i) Capital reserve

Capital reserve represents the amount on account of forfeiture of equity shares of the Company.

(ii) Securities premium

Securities Premium represents amount received on issue of shares in excess of the par value.

(iii) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. Central cash subsidy amounting to Rs. 30 lakh received for the installation of plant at Nalagarh in 2006 is included in general reserve.

However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

(iv) Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

(v) Other comprehensive income

It comprises amounts that will not be re-classifed to profit & loss and are eligible to be re-classified in retained earning.

		329.84	308.66
	Tax adjustment for earlier years (calculated for effective tax rates) (ii)	4.96	(48.14)
	Net Effective Tax recognised in statement of profit and loss in respect of current year (i - ii)	338.59	349.01

B) The tax charge shown in the profit and loss differs from the tax charge that would apply if all profits had been charged at corporate tax rate. A reconciliation between the tax expense and the accounting profit multiplied by India's domestic tax rate for the year ended March 31, 2020 and March 31, 2019 is as follows:

	Year ended 31 March 2020 (Rs. / lakh)	Year ended 31 March 2019 (Rs. / lakh)
Profit before tax	1,671.65	1,358.25
Applicable tax rate	25.17%	29.12%
Calculated income tax expense	420.72	395.52
Tax effect of:		
a. Income not taxable as per applicable tax laws	(39.17)	(64.19)
b. Non-deductible expenses	9.79	15.66
c. Income Taxable at different rate/change in tax rate	(52.75)	2.02
Income tax expense	338.59	349.01
Effective tax rate	20.55%	22.15%

C) The section 115BAA in the Income Tax Act, 1961, provides existing domestic companies with an option to pay tax at a concessional rate of 22% plus applicable surcharge and cess. The reduced tax rates come with the consequential surrender of specified deductions/ incentives. The option needs to be exercised within the prescribed time for filing the return of income under section 139(1) of the Income Tax Act, 1961, for assessment year (AY) 2020-21 or subsequent AYs. Once exercised, such an option cannot be withdrawn for the same or subsequent AYs.

These financial statements are prepared on the basis that the Company would avail the option to pay income tax at the lower rate. Consequently, the opening deferred tax asset (net) has been measured at the lower rate, with a one-time corresponding reversal of Rs 48.10 lakh to the statement of profit and loss.

159.15*	159.15*	The Company is under litigation with the revenue authorities regarding an expenditure claimed by the Company arising out of an arbitration award. As per the Company, the expenditure should be allowed in the year the arbitrator has passed the award. The department is of the view that the liability is not accrued till the award becomes a rule of court and has therefore disallowed the expenditure in the AY 1998-99 (the year in which the Company claimed the expenditure). During the financial year 2006-2007, the Company has received a demand notice from Income tax authorities pursuant to the order by Income Tax Appellate Tribunal, Delhi. The Company is presently in appeal before the Hon'ble High Court. The Company has deposited Rs. 20.00 lakh against the demand which is included under note no. 8.

The Company had obtained a stay of the Himachal Pradesh Government order levying entry tax on all goods entering the state with effect from 24th January, 2011. The Hon'ble High Court, Himachal Pradesh while staying the levy in an interim order, directed the Company to deposit 1/3rd of the assessed amount as "deposit" with the state government and furnish a bank guarantee for the balance 2/3rd amount to them. The company has deposited Rs. 451.33 lakh and furnished bank guarantees of Rs. 793.35 lakh till 30.06.2017. Since the cash payment as per court order is in the nature of deposits, no amount has been expensed off in the financial statements as entry tax.

While Hon'ble Supreme Court has upheld the constitutional validity of Entry Tax in their judgement dated 11th November, 2016, the issue of discrimination under Article 304(a) and scope of local area is left to be determined by respective High Courts. Hon'ble High Court, Shimla has issued notice on the writ petition filed by the Company and ordered that bank guarantee will not be encashed and department will maintain status guo.

* Based on the discussions with the solicitor/ expert opinions taken/status of the case, the management believes that the Company has strong chances of success in above mentioned cases and hence no provision there against is considered necessary at this point in time.

The company has invested fund in LIC of India ("insurer"). The future information of fund investments are not available with the Company.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Sensitivity analysis:

If the expected salary growth and discount rate increases /(decreases) by 0.50%, the defined benefit obligation would change as:

	As at 31 March, 2020 Increase by 0.50% (Rs. / lakh) Control Decrease by 0.50% (Rs. / lakh)		As at 31 March 2019	
			Increase by 0.50% (Rs. / lakh)	Decrease by 0.50% (Rs. / lakh)
Discount rate	(15.87)	17.22	(13.57)	14.77
Salary growth rate	16.47	(15.30)	14.57	(13.51)

Notes

- Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.
- Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 0.50 percentage, keeping all other actuarial assumptions constant.

40 Financial instruments

A. Capital Management

The Company's objective for capital management is to maximise shareholders value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity and operating cash flows generated.

C. Financial risk

In the course of its business, the Company is exposed primarily to fluctuations in Interest rates, security price risk, credit risk and liquidity risk which may adversely impact the fair value of its financial instruments, the operation of the Company did not have an exposure for foreign currency exchange rates as the majority of the operations are in India only. The Company has a risk management policy covering risks associated with the financial assets and liabilities such as interest rate risk, security price risk and credit risk. The risk management policy has been approved by the board of directors. The risk management framework aims to:

- Create a stable business planning environment by reducing the impact of interest rate fluctuations on the Company's business plan.
- Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

The Company does not use the derivative financial instruments for risk mitigation.

a. Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the foreign currency exchange rates, interest rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

i. Foreign currency exchange rate risk

The Company operates majorly in India but is exposed to foreign exchange risk arising through its sale and purchase of goods and services with overseas suppliers and investment in foreign currency transactions primarily with respect to US Dollar ('USD'). The Company does not use the derivative financial instruments to manage their risk.

The company exposure to foreign currency risk are as follows:

Particulars	Receivables - Trade Receivables (Rs. / lakh)	Cash in Hand (Rs. / lakh)	Payable - Trade Payables (Rs. / lakh)	Investments (Rs. / lakh)
As at 31 March, 2020				
USD	60.28	-	-	1,383.43
As at 31 March, 2019				
USD	56.02	-	-	1,383.43

The operation of the Company are not much exposed to the foreign currency as major transactions are done in their functional currency ('INR or Indian Rupee) and at year end there are no significant exposure oustanding.

ii. The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

Particulars	USD
	(Rs. / lakh)
As at 31 March, 2020	
Assets	1,443.71
Liabilities	-
As at 31 March, 2019	
Assets	1,439.45
Liabilities	-

iii. Interest rate risk

Financial liabilities

The Company has not regularly utilised the borrowed fund, hence the Company is not significantly exposed to interest rate risk.

Financial assets

The Company's investments are primarily in fixed rate interest bearing investments. Hence the Company is not significantly exposed to interest rate risk.

b. Security price risk

The Company is exposed to equity price risks arising from equity investments held by the Company and classified in the balance sheet as fair value through OCI.

i. Equity price sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the end of the year.

If the equity instruments (equity shares and equity linked mutual fund) prices had been 5% higher / lower:

Other comprehensive income for the year ended 31 March 2020 would increase / decrease by Rs. 195.99 Lakh (for the year ended 31 March 2019: increase / decrease by Rs. 224.43 lakh) as a result of the change in fair value of equity investment measured at FVTOCI.

ii. Exposure in mutual funds (Other than equity linked mutual fund)

The Company manages the surplus funds majorly through investments in debt based mutual fund schemes. The price of investment in these mutual fund schemes is reflected though Net Asset Value (NAV) declared by the Asset Management Company on daily basis as reflected by the movement in the NAV of invested schemes. The Company is exposed to price risk on such Investments.

Mutual fund price sensitivity analysis - The sensitivity analysis below have been determined based on Mutual Fund Investment at the end of the year.

If NAV has been 1% higher / lower: Profit for the year ended 31 March 2020 would increase / decrease by Rs. 19.04 lakh (for the year ended 31.03.2019 by Rs. 29.43 Lakh) as a result of the changes in fair value of mutual fund investments.

iii. If the tax free bonds and investment in preference shares prices had been 1% higher / lower:

Profit for the year ended 31 March 2020 would increase / decrease by Rs. 7.72 Lakh (for the year ended 31 March 2019: increase / decrease by Rs. 8.33 Lakh) as a result of the change if there is no change in the market risk and other assumptions.

c. Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations. To manage trade receivables, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and ageing of such receivables.

Financial instruments that are subject to such risk, principally consist of investments, trade receivables and loans and advances. None of the financial instruments of the Company results in material concentration of credit risks. Financial assets for which loss allowance is measured:

	As at	As at
	31 March 2020	31 March 2019
	(Rs. / lakh)	(Rs. / lakh)
Loss allowance measured for trade receivables	81.89	42.03
Loss allowance measured for advance	0.00	0.20

Other than financial assets mentioned above, none of the Company's financial assets are either impaired or past due, and there were no indications that defaults in payment obligations would occur as exposure to Trade Receivable is diversified.

d. Liquidity risk

Liquidity risk refers to the risk that the Company can not meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per the requirements.

During the year, the Company generated sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The table below provides details regarding the contractual maturities of significant financial liabilities as at:

41 Fair value measurements

Fair value of financial assets and financial liabilities that are measured at fair value on a recurring basis

Financial assets and financial liabilities are measured at fair value at the end of each year. The information of the valuation techniques and the input used are as follows:

	Level	As at 31 March 2020 (Rs. / lakh)	As at 31 March 2019 (Rs. / lakh)
Measured at fair value through profit or loss			
Investments			
- non current	Level 2	1,369.38	2,108.95
- current	Level 2	534.89	834.02
Measured at fair value through other comprehensive income			
Non current investments		3,919.80	4,488.64
- Investments in Equity shares(quoted)	Level 1	275.76	365.67
- Investments in equity oriented mutual funds	Level 2	1,459.30	1,820.89
- Investments in Capital venture fund (unquoted)	Level 3	544.80	662.14
 Investment in Compulsory convertible preference shares (Unquoted) 	Level 3	1,383.43	1,383.43
- Investment in equity shares (Unquoted)	Level 3	256.51	256.51

Valuation technique

Level 1: Quoted prices in the active market. This level of hierarchy includes financial assets that are measured by reference to quoted prices in the active market.

Level 2: Valuation techniques with observable inputs. This level of hierarchy includes items measured using inputs other than quoted prices included within Level 1 that are observable for such items, either directly or indirectly.

Level 3: Valuation techniques with unobservable inputs. This level of hierarchy includes items measured using inputs that are not based on observable market data (unobservable inputs). Fair value determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instruments nor based on available market data.

The fair value of the financial assets are determined at the amount that would be received to sell an asset in an orderly transaction between market participants. The following methods and assumptions were used to estimate the fair values:

- a. Investments in debt mutual funds: Fair value is determined by reference to quotes from the financial institutions, i.e. net asset value (NAV) for investments in mutual funds declared by mutual fund house.
- b. Quoted equity investments: Fair value is derived from quoted market prices in active markets.
- c. Unquoted equity investments: Fair value is derived on the basis of income approach, in this approach the discounted cash flow method is used to capture the present value of the expected future economic benefits to be derived from the ownership of these investments.

Derivative contracts: The Company has not entered into any forward contracts and swaps to manage its exposure as the Company management expects that there are nominal exposure of the Company for foreign exchange and are manageable.

44 Estimation uncertainty relating to the global health pandemic COVID-I9

The Company has made assessment of its liquidity position for the next year and the recoverability and carrying value of its assets comprising property, plant and equipment, investments, inventory and trade receivables. Based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 which may be different from that estimated as at the date of approval of these financial statements. The Company will continue to closely monitor any material changes arising of future economic conditions and impact on its business.

45 Events after the reporting period

There are no subsequent events which require any adjustment in financial statements.

46 Previous year figures

Previous year figures have been regrouped/reclassified, wherever necessary to conform to this year's classification.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF INDAG RUBBER LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Indag Rubber Limited (hereinafter referred to as the "Holding Company") its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its jointly controlled entity, which comprise the Consolidated Balance Sheet as at 31st March, 2020, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its jointly controlled entity as at 31st March, 2020, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group and its jointly controlled entity in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

The key audit matters

1) Investments

The Company held current and non-current investments aggregating to Rs.8,241.82 lakhs as on 31st March 2020.

We have determined that fair valuation of investments was a key audit matter, specially relating to investments in mutual funds amounting to Rs.3,195.24 lakhs and investment of Rs.1,383.43 lakhs in SRL 142 Holdings Ltd. (SRL) by way of fully paid up compulsorily convertible preference shares. SRL has interest in oil production and exploration Company in Nigeria.

The oil industry is exposed significantly to macroeconomic factors such as commodity prices, currency fluctuations,

How the matter was addressed in our audit

Our audit procedures on investments included:

- In the case of investments in mutual funds amounting to Rs.3,195.24 lakhs, we verified the fair value as on 31st March, 2020 with the net asset value of the units given in the statement of accounts received from the mutual funds.
- Since the investments in mutual funds are carried at fair value, the uncertainty arising out of Covid-19 is already factored in to a large extent.
- In the case of fair valuation of investments held in SRL 142 Holdings Limited, which in turn has invested

The key audit matters

interest rate risk and political developments. The assessment of commercial viability and technical feasibility of exploration oil and gas is complex and includes a number of significant variables. (Refer Notes 2.19(ii), 5, 11 and 48 to consolidated financial statements).

How the matter was addressed in our audit

in a Nigerian oil company, we tested the valuation prepared by the management with reference to estimated oil resources, market price of crude oil and gas prevailing in the international market, the Indian Rupee to US Dollar exchange rate, assumptions as to future production of oil and gas, capital expenditure to be incurred and contracts entered into by the Nigerian Company.

2) Inventories

The Company held inventories of Rs. 3,694.79 lakhs as on 31st March, 2020.

Given the value of inventories and number of locations, the valuation and existence of inventories was considered to be a key audit matter. (Refer Notes 2.17, 10 and 48 to the consolidated financial statements)

We tested the design and effectiveness of controls over the identification of obsolete inventories and obtained an understanding of the Company's process for measuring the amount of write down required.

Although, we did not participate in the year end physical inventories counting due to Covid-19 lockdown, we applied alternate audit procedures to obtain sufficient appropriate audit evidence regarding existence and conditions of inventories. Management feels that there could be certain delay in liquidating the inventories but the fair value at which inventories are carried will be realised.

3) Trade receivables

Management has recognized allowances for credit losses on trade receivables based on specific known facts and circumstances or customers' abilities to pay. The details of trade receivables and expected credit loss allowances have been disclosed in Note 12 (Refer notes 2.19(iv), 12 and 48 to the consolidated financial statements)

The determination of recoverability of the trade receivables involves significant management judgment and inherent subjectivity given the uncertainty regarding the ability of the trade receivables to settle their debts. Therefore, determination of expected credit loss allowance was identified as a key audit matter specially under Covid-19 situation.

Our audit procedures included the following:

- Assessed the recoverability of trade receivables with reference to their historical bad debt experience, ageing profiles of the counter parties and historical repayment trends.
- Because of Covid-19 shutdown during the months of April, May and partially in June, 2020, the recoveries of trade receivables might be delayed but carrying amounts are likely to be realized as per management assessment.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report and Corporate Governance Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group and its jointly controlled entity in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and its jointly controlled entity are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group its jointly controlled entity are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its jointly controlled entity are responsible for overseeing the financial reporting process of the Group and its jointly controlled entity.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement
 resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional
 omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our
 opinion on whether the Company has adequate internal financial controls system in place and the operating
 effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the
 audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant
 doubt on the ability of the Group and its jointly controlled entity to continue as a going concern. If we conclude that
 a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in
 the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions
 are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions
 may cause the Group and its jointly controlled entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities
within the Group and its jointly controlled entity to express an opinion on the consolidated financial statements. We
are responsible for the direction, supervision and performance of the audit of the financial statements of such
entities included in the consolidated financial statements of which we are the independent auditors. For the other
entities included in the consolidated financial statements, which have been audited by other auditors, such other
auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We
remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements / financial information of two subsidiaries, whose financial statements/ financial information reflect total assets of Rs.1,564.43 lakhs as at 31st March, 2020, total revenues of Rs.435.79 lakhs and net cash outflows amounting to Rs.18.24 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of the other auditors on separate financial statements and other financial information of subsidiaries, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The consolidated balance sheet, the consolidated statement of profit and loss including other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act.

- (e) On the basis of the written representations received from the directors of the Holding Company and its jointly controlled entity as on 31st March 2020 taken on record by the Board of Directors of the Holding Company and its jointly controlled entity and the reports of the statutory auditors of its subsidiary companies, none of the directors of the Group and its jointly controlled entity, is disqualified as on 31st March 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and its jointly controlled entity and the operating effectiveness of such controls, refer to our separate report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group. Refer Note 36 to the consolidated financial statements;
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses:
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its Subsidiaries and jointly controlled entity during the year ended 31st March 2020.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Indag Rubber Limited as of and for the year ended 31st March, 2020, we have audited the internal financial controls over financial reporting of Indag Rubber Limited (hereinafter referred to as "the Holding Company") and its subsidiaries, as of that date. Reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls over financial reporting is not applicable to its jointly controlled entity incorporated in India pursuant to MCA notification GSR 583(E) dated June 13, 2017.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Company, and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on, the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to two subsidiary companies which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

Notes to Consolidated financial statements for the year ended 31 March, 2020

1. Corporate information

Indag Rubber Limited (hereinafter referred to as 'the Parent Company') is a Public Limited Company incorporated and domiciled in India. The Parent company's shares are listed on Bombay Stock Exchange ('BSE'). The Parent Company has invested funds in the equity share capital of a subsidiary who in turn invested the funds in the equity share capital of its subsidiary. The Parent Company is engaged in the manufacturing and selling of Precured Tread Rubber and allied products. The subsidiary along with step down subsidiary company is engaged in the business of enhancing knowledge and skills of solar technologies in India, specially the expertise in solar park development and to carry on the business of generating power supply through clean energy sub-sectors e.g., solar energy, biomass, wind, and energy efficiency projects and/or any other means, distribute, supply and sell such power either directly or through facilities or Central/State Governments or private companies or Electricity Boards to industries and to Central/State Governments. The Parent Company and its subsidiaries collectively hereinafter referred to as "the Group".

The registered office of the Parent Company is located at 11 Community Centre, Saket, New Delhi- 110017, India. The Company's CIN is - L74899DL1978PLC009038.

The consolidated financial statements as at March 31, 2020 present the financial position of the Group as well as its interests in joint venture. The list of entities consolidated is provided in Note 47.

These consolidated financial statements were approved by the Board of Directors and authorised for issue on June 26, 2020.

2. Significant accounting policies

2.1 Statement of compliance and basis of preparation and presentation

The Consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standard) (Amendment) Rules, 2016. The Group has prepared these consolidated financial statements to comply in all material respects with the accounting standards notified under Section 133 of the Companies Act, 2013 ("the Act").

The consolidated financial statements have been prepared on historical cost basis except for certain financial instruments which are measured at fair value at the end of each reporting period as explained in the accounting policies.

The Consolidated financial statements of the Group are presented in Indian Rupees (Rs.) and all values are rounded to the nearest lakh, except when otherwise indicated.

With effect from 1st April, 2019, Ind AS 116 – "Leases" (Ind AS 116) supersedes Ind AS 17 – "Leases". The Group has adopted Ind AS 116 using the Modified retrospective approach. The adoption of the standard did not have any significant impact on the consolidated financial statements.

2.2 Basis of Consolidation

The consolidated financial statements include the financial statements of Parent Company and its subsidiaries. Subsidiaries are entities controlled by the Company. Control exists when the Company:

- a. has power over the investee;
- b. is exposed, or has rights, to variable returns from its involvement with the investee and
- c. has the ability to affect those returns through its power over the investee.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements listed above.

In assessing control, potential voting rights that currently are exercisable are taken into account. The results of subsidiaries acquired or disposed off during the year are included in the consolidated financial statements from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Inter-company transactions and balances including unrealized profits are eliminated in full on consolidation.

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately

from the Company's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis.

Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if it results in the non-controlling interest having a deficit balance.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Company's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to shareholders of the Company.

When the Company loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between the aggregate of the fair value of consideration received and the fair value of any retained interest and the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests, amounts previously recognized in other comprehensive income in relation to the subsidiary are accounted for (i.e., reclassified to profit or loss) in the same manner as would be required if the relevant assets or liabilities were disposed off. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under Ind AS 109 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

Investment in Joint Venture has been accounted under the equity method as per Ind AS 28 –Investments in Joint Ventures.

The group does not have any investments in associate.

2.3 Business Combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. Acquisition related costs are recognised in profit or loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition are recognised at their fair value at the acquisition date, except certain assets and liabilities required to be measured as per the applicable standard.

Purchase consideration in excess of the Company's interest in the acquiree's net fair value of identifiable assets, liabilities and contingent liabilities is recognised as goodwill. Excess of the Company's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the purchase consideration is recognised, after reassessment of fair value of net assets acquired, in the Capital Reserve.

The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interests' proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

2.4 Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Impairment loss for goodwill is recognised directly in the statement of profit and loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

2.5 Basis of classification of Current and Non-Current

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as non-current assets or liabilities.

2.6 Use of estimates

The preparation of these financial statements, in conformity with the recognition and measurement principles of Ind AS, requires the management of the Group to make judgments, estimates and assumptions that affect application of accounting policies and the reported amount of assets and liabilities, disclosures relating to contingent assets and liabilities as at the date of the financial statements and the reported amounts of income and expenses for the periods presented. Actual results may differ from these estimates. Accounting estimates could change from period to period.

Estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Changes in estimates are reflected in the financial statements in the period in which changes are made, if material, their effects are disclosed in the notes to the financial statements.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of valuation of deferred tax assets, property plant & equipments, impairement of investments, provisions and contingent liabilities.

ii) Uncertainty relating to the global health pandemic Covid-19

The Group has made assessment of its liquidity position for the next year and the recoverability and carrying value of its assets comprising property, plant and equipment, investments, inventory and trade receivables. Based on current indicators of future economic conditions, the Group expects to recover the carrying amount of these assets. The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 which may be different from that estimated as at the date of approval of these consolidated financial statements. The Group will continue to closely monitor any material changes arising of future economic conditions and impact on its business.

2.7 Revenue Recognition

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The following specific criteria must also be met before revenue is recognised:

i. Sale of goods

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. Revenue is recognised when collectability of the resulting receivables is reasonably assured.

ii. Sale of services

Revenue from sale of services is recognised as and when the services are rendered and the stage of completion can be measured reliably and based on agreements/arrangements with the concerned customers.

iii. Sale of power

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company

and the revenue can be reliably measured. Revenue from main business activities are recognised on due basis, as and when the services are rendered, based on the agreements/arrangements with the concerned parties. Unbilled revenue is recognised to the extent not billed at the year end.

Solar power generation income is recognised based on the monthly statement of "State Energy Account" generated by Bangalore Electricity Supply Company Limited of units generated through our Plant.

iv. Dividend and interest income

Dividend income from investments is recognised when the right to receive dividend is established by the reporting date.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time proportion basis, with reference to the principal outstanding and at the effective interest rate, which is the rate that exactly discounts estimated future cash receipts over the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.8 Leases

The Group, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Group has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate.

For short-term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the lease term

2.9 Foreign currency

These consolidated financial statements of the Group are presented in Indian rupees (Rs. / lakh) which is the Parent Company and its subsidiaries functional and presentation currency.

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Foreign currency denominated monetary assets and liabilities are re-measured into the functional currency at the exchange rate prevailing on the balance sheet date.

Exchange differences are recognised in the Consolidated Statement of Profit and Loss.

2.10 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

Borrowing costs include interest and amortisation of ancillary costs incurred in connection with the arrangement of borrowings.

2.11 Employee benefits

(i) Retirement benefits in the form of provident fund (where contributed to the Regional PF Commissioner) is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident

fund. The Group recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre payment will lead to, for example, a reduction in future payment or a cash refund.

Retirement benefits in the form of provident fund contributed to the Trust set up by the employer is a defined benefit scheme and is provided for on the basis of actuarial valuation of projected unit credit method made at the end of each financial year. The difference between the actuarial valuation of the provident fund of employees at the year end and the balance of own managed funds is provided for as liability in the books by the Group.

- (ii) Gratuity liability under the Payment of Gratuity Act is a defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. The gratuity plan has been funded by policy taken from Life Insurance Corporation of India. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. Past service cost both vested and unvested is recognised as an expense at the earlier of
 - (a) when the plan amendment or curtailment occurs; and
 - (b) when the entity recognises related restructuring costs or termination benefits.
- (iii) Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.
- (iv) The Group treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

2.12 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

The Group's current tax is calculated using tax rates that have been enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised for the future tax consequences of temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

In the situations where the Group is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Group restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

Current and deferred tax for the year

Current and deferred tax are recognised in consolidated statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Minimum alternate tax (MAT) paid in a year is charged to the consolidated statement of profit and loss as current tax. The Group recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement". The group reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Group does not have convincing evidence that it will pay normal tax during the specified period.

2.13 Property, plant and equipment

Property, plant and equipment, capital work in progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciated them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of respective asset if the recognition criteria for a provision are met.

An item of Property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the assets.

Gains or losses arising from disposal or retirement of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

2.14 Depreciation on property, plant and equipment

a. With respect to business of manufacturing and selling of Precured Tread Rubber and allied products. Leasehold land is amortised on a straight line basis over the period of lease i.e., 95/99 years. Freehold land is not depreciated.

Depreciation on property, plant and equipment is calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management, which are equal to the useful lives prescribed under Schedule II to the Companies Act, 2013.

Estimated useful lives of the assets are as follows:

S. No.	Assets	Useful lives in years
i.	Buildings	Ranging from 5 to 60 Years
ii.	Plant and equipment	Ranging from 3 to 15 Years
iii.	Furniture and Fixtures	10 years
iv.	Office equipment	Ranging from 3 to 6 Years
V.	Vehicles	Ranging from 8 to 10 Years

b. With respect to solar power business:

Depreciation on property, plant and equipment calculated on a straight-line basis using the rates arrived at, based on the useful lives estimated by the management, which are equal to the useful lives prescribed under Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is either not given or different than those prescribed in Schedule II are used:

S. No.	Assets	Useful lives in years
i.	Plant and equipment	
	- Inverter	10 years
	- Other machinery	25 years
	- Office equipment	3 years

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.15 Intangible assets

Intangible assets purchased are measured at cost as of the date of acquisition less accumulated amortisation and accumulated impairment, if any.

Intangible assets consist of rights under licensing agreement and software licenses which are amortised over license period which equates the useful life ranging between 2-4 years on a straight-line basis or actual life of license whichever is earlier.

2.16 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.17 Inventories

Inventories are valued as follows:

Raw materials, stores and spares and packing materials

Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated, are expected to be sold at or above cost. Cost is determined on moving weighted average method.

Work in progress and finished goods

(own manufactured)

Lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on monthly moving weighted average basis.

Traded goods

Lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion and estimated costs necessary to make the sale.

2.18 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.19 Financial instruments

i. Classification, initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets other than equity instruments are classified into two categories: financial assets at fair value through profit or loss and at amortised cost. Financial assets that are equity instruments are classified at fair value through other comprehensive income. Financial liabilities are classified into financial liabilities at fair value through profit or loss.

Financial instruments are recognized on the balance sheet when the Group becomes a party to the contractual provisions of the instrument.

Initially, a financial instrument is recognized at its fair value. Transaction costs directly attributable to the acquisition or issue of financial instruments are recognized in determining the carrying amount, if it is not classified as at fair value through profit or loss. Subsequently, financial instruments are measured according to the category in which they are classified.

Financial assets at amortised cost: Financial assets having contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding and that are held within a business model whose objective is to hold such assets in order to collect such contractual cash flows are classified in this category. Subsequently, these are measured at amortized cost using the effective interest rate method less any impairment losses.

Equity investments at fair value through other comprehensive income: These include financial assets that are equity instruments and are irrevocably designated as such upon initial recognition. Subsequently, these are measured at fair value and changes therein are recognized directly in other comprehensive income, net of applicable income taxes.

Dividends from these equity investments are recognized in the Statement of Profit and Loss when the right to receive payment has been established. When the equity investment is derecognized, the cumulative gain or loss in equity is transferred to retained earnings.

Financial assets at fair value through profit or loss: Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs that are directly attributable to the acquisition of financial assets, which are measured at fair value through profit or loss, are immediately recognised in profit or loss.

Cash and cash equivalents: Cash and cash equivalents comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Equity instruments: An equity instrument is any contract that evidences residual interests in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

Financial liabilities at fair value through profit or loss: Derivatives, including embedded derivatives separated from the host contract, unless they are designated as hedging instruments, for which hedge accounting is applied, are classified into this category. These are measured at fair value and changes in fair value are recognized in the Statement of Profit and Loss.

Financial guarantee contracts: These are initially measured at fair value and are subsequently measured at the higher of the amount of loss allowance determined or the amount initially recognized, less the cumulative amount of income recognized.

Other financial liabilities: These are measured at amortized cost using the effective interest rate method.

ii. Determination of fair value:

The fair value of a financial instrument on initial recognition is normally the transaction price (fair value of the consideration given or received). Subsequent to initial recognition, the Group determines the fair value of financial instruments, that are quoted in active markets, using the quoted bid prices (financial assets held) or quoted ask prices (financial liabilities held) and using valuation techniques for other instruments. Valuation techniques include discounted cash flow method and other valuation models.

iii. Derecognition of financial assets and financial liabilities:

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

Financial liabilities are derecognised when these are extingushed, which is when the obligation is discharged, cancelled or expired.

iv. Impairment of financial assets:

The Group recognizes a loss allowance for expected credit losses on a financial asset that is at amortized cost. Loss allowance in respect of financial assets is measured at an amount equal to life time expected credit losses and is calculated as the difference between their carrying amount and the present value of the expected future cash flows discounted at the original effective interest rate.

v. Derivative financial instruments

The Group does not hold any derivative and embedded derivative financial instruments.

2.20 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

2.21 Operating Segments

Identification of segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as Chief Financial Officer and Chief Executive Officer.

Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segment accounting policies

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group as a whole.

2.22 Earnings per share

Basic earnings per share are computed by dividing profit/loss for the period by the weighted average number of shares outstanding during the year. Partly paid up shares are included as fully paid equivalents according to the fraction paid up. Diluted earnings per share are been computed using the weighted average number of shares and dilutive potential shares, except where the result would be anti-dilutive.

2.23 Government grants and subsidies

Grants and subsidies from the government are recognized when there is reasonable assurance that

- (i) the Group will comply with the conditions attached to them, and
- (ii) the grant/ subsidy will be received.

Where the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is reduced from the respective cost of an asset and accordingly depreciation is calculated on reduced amount.

2.24 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

2.25 Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Notes

(i) Capital reserve

Capital reserve represents the amount on account of forfeiture of equity shares of the Company.

(ii) Securities premium

Securities Premium represents amount received on issue of shares in excess of the par value.

(iii) General reserves

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. Central cash subsidy amounting to Rs. 30 lakh received for the installation of plant at Nalagarh in 2006 is included in general reserve.

However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

(iv) Retained earnings

Retained earnings represent the amount of accumulated earnings of the Group.

(v) Other comprehensive income

It comprises amounts that will not be re-classifed to profit & loss and are eligible to be re-classified in retained earning.

C) The section 115BAA in the Income Tax Act, 1961, provides existing domestic companies with an option to pay tax at a concessional rate of 22% plus applicable surcharge and cess. The reduced tax rates come with the consequential surrender of specified deductions/ incentives. The option needs to be exercised within the prescribed time for filing the return of income under section 139(1) of the Income Tax Act, 1961, for assessment year (AY) 2020-21 or subsequent AYs. Once exercised, such an option cannot be withdrawn for the same or subsequent AYs.

These consolidated financial statements are prepared on the basis that the Parent Company would avail the option to pay income tax at the lower rate. Consequently, the opening deferred tax asset (net) has been measured at the lower rate, with a one-time corresponding reversal of Rs 48.10 lakh to the consolidated statement of profit and loss.

#The Group had obtained a stay of the Himachal Pradesh Government order levying entry tax on all goods entering the state with effect from 24th January, 2011. The Hon'ble High Court, Himachal Pradesh while staying the levy in an interim order, directed the Group to deposit 1/3rd of the assessed amount as "deposit" with the state government and furnish a bank guarantee for the balance 2/3rd amount to them. The Group has deposited Rs. 451.33 lakh and furnished bank guarantees of Rs. 793.35 lakh till 30.06.2017. Since the cash payment as per court order is in the nature of deposits, no amount has been expensed off in the financial statements as entry tax.

While Hon'ble Supreme Court has upheld the constitutional validity of Entry Tax in their judgement dated 11th November, 2016, the issue of discrimination under Article 304(a) and scope of local area is left to be determined by respective High Courts. Hon'ble High Court, Shimla has issued notice on the writ petition filed by the Group and ordered that bank guarantee will not be encashed and department will maintain status quo.

^{*} Based on the discussions with the solicitor/ expert opinions taken/status of the case, the management believes that the Group has strong chances of success in above mentioned cases and hence no provision there against is considered necessary at this point in time.

The recoverable amount of cash generating unit has been determined based on value in use. Value in use has been determined based on future cash flows, after considering current economic conditions and trends, estimated future operating results, growth rates and anticipated future economic conditions. As at 31 March, 2020 the estimated cash flow of solar power project has been discounted using pre tax discount rate and the recoverable amount of the same exceeds the carrying amount.

40 Employee benefit plans

a. Defined contribution plans

The Group makes contribution to Provident Fund and Employee State Insurance Scheme which are defined contribution plans, for qualifying employees. Under the Schemes, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable to these plans by the Group are at rates specified in the rules of the schemes.

b. Defined benefit plan

Gratuity

The Group has a defined benefit gratuity plan. Employee who have completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service.

The most recent valuation of the present value of defined benefit obligation was carried as at 31st March, 2020 in which the present value of the defined benefit obligation, and the related current service cost and past service cost were measured using the projected unit credit method.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation as at	
	31 March, 2020	31 March, 2019
Expected rate of return	7.65%	7.65%
Discount rate (%)	6.77%	7.63%

Actuarial gain/(loss) from change in experience adjustment	10.43	6.11
Components of defined benefit costs recognised in other comprehensive income	14.36	5.31

Notes:

- The current service cost and the net interest expenses for the year are included in the 'Employee benefits expense' line item in the Statement of profit and loss.
- ii. The remeasurement of the net defined liability is included in other comprehensive income.

The amounts included in the balance sheet arising from the Group's obligation in respect of defined benefit plans is as follows:

	As at 31 March 2020 (Rs. / lakh)	As at 31 March 2019 (Rs. / lakh)
Present value of defined benefit obligation		
Non-current	-	-
Current	(1.88)	(17.54)
	(1.88)	(17.54)

Movement in the present value of the defined benefit obligation and fair value of plan assets are as follows:

A Present value of the defined benefit obligation

	Year ended 31 March 2020 (Rs. / lakh)	Year ended 31 March 2019 (Rs. / lakh)
Opening defined benefit obligation	317.73	298.65

Net liability/(asset) (A-B) The fair value of the plan assets are as follows	(1.88)	(17.54)
Fund managed by insurer	352.55	335.27

The Group has invested fund in LIC of India ("insurer"). The future information of fund investments are not available with the Group.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Sensitivity analysis:

If the expected salary growth and discount rate increases /(decreases) by 0.50%, the defined benefit obligation would change as:

	As at 31 March, 2020		As at 31 March 2019	
	Increase by 0.50% (Rs. / lakh)	Decrease by 0.50% (Rs. / lakh)	Increase by 0.50% (Rs. / lakh)	Decrease by 0.50% (Rs. / lakh)
Discount rate	(15.87)	17.22	(13.57)	14.77
Salary growth rate	16.47	(15.30)	14.57	(13.51)

Notes

 Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

ii. Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 0.50 percentage, keeping all other actuarial assumptions constant.

41 Financial instruments

A. Capital Management

The Group's objective for capital management is to maximise shareholders value, safeguard business continuity and support the growth of the group. The group determines the capital requirement based on annual operating plans and long-term and other strategic investment plans. The funding requirements are met through equity, operating cash flows generated and borrowings.

The following table summarizes the capital and Net Debt-equity ratio of the Group:

Particulars	As at 31 March 2020	As at 31 March 2019
Net debt*	951.77	883.47
Total equity	19,062.64	19,392.79
Net debt to equity ratio	0.05	0.05

^{*} Net Debt = non-current borrowings + current maturities of non-current borrowings - cash and cash equivalents

C. Financial risk

In the course of its business, the Group is exposed primarily to fluctuations in Interest rates, security price risk, credit risk and liquidity risk, which may adversely impact the fair value of its financial instruments, the operation of the group did not have an exposure for foreign currency exchange rates as the majority of the operations are in India only. The group has a risk management policy covering risks associated with the financial assets and liabilities such as interest rate risks, security price risk and credit risks. The risk management policy has been approved by the board of directors. The risk management framework aims to:

- Create a stable business planning environment by reducing the impact of interest rate fluctuations on the group's business plan.
- Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

The Group does not use the derivative financial instruments for risk mitigation.

a. Market risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the foreign currency exchange rates, interest rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

i. Foreign currency exchange rate risk

The Group operates majorly in India but is exposed to foreign exchange risk arising through its sale and purchase of goods and services with overseas suppliers and investment in foreign currency transactions primarily with respect to US Dollar ('USD'). The Group does not use the derivative financial instruments to manage their risk.

The Group exposure to foreign currency risk are as follows:

Particulars	Receivables - Trade Receivables (Rs. / lakh)	Cash in Hand (Rs. / lakh)	Payable - Trade Payables (Rs. / lakh)	Investments (Rs. / lakh)
As at 31 March, 2020				
USD	60.28	-	1	1,383.43
As at 31 March, 2019				
USD	56.02	-	-	1,383.43

The operation of the Group are not much exposed to the foreign currency as major transactions are done in their functional currency ('INR or Indian Rupee) and at year end there are no significant exposure oustanding.

ii. The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

Particulars	USD
	(Rs. / lakh)
As at 31 March, 2020	
Assets	1,443.71
Liabilities	-
As at 31 March, 2019	
Assets	1,439.45
Liabilities	-

iii. Interest rate risk

Financial liabilities

The Group is not exposed to any interest rate risk as there are no floating interest rate loans and borrowings.

Financial assets

The Group's investments are primarily in fixed rate interest bearing investments. Hence the group is not significantly exposed to interest rate risk.

b. Security price risk

The group is exposed to equity price risks arising from equity investments held by the group and classified in the balance sheet as fair value through OCI.

i Equity price sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the end of the year.

If the equity instruments (equity shares and equity linked mutual fund) prices had been 5% higher / lower:

Other comprehensive income for the year ended 31 March 2020 would increase / decrease by Rs. 195.99 Lakh (for the year ended 31 March 2019: increase / decrease by Rs. 224.43 lakh) as a result of the change in fair value of equity investment measured at FVTOCI.

ii. Exposure in mutual funds (Other than equity linked mutual fund)

The group manages the surplus funds majorly through investments in debt based mutual fund schemes. The price of investment in these mutual fund schemes is reflected though Net Asset Value (NAV) declared by the Asset Management Company on daily basis as reflected by the movement in the NAV of invested schemes. The group is exposed to price risk on such Investments.

Mutual fund price sensitivity analysis - The sensitivity analysis below have been determined based on Mutual Fund Investment at the end of the year.

If NAV has been 1% higher / lower: Profit for the year ended 31 March 2020 would increase / decrease by Rs. 19.04 lakh (for the year ended 31.03.2019 by Rs. 29.43 Lakh as a result of the changes in fair value of mutual fund investments.

iii. If the tax free bonds and investment in preference shares prices had been 1% higher / lower:

Profit for the year ended 31 March 2020 would increase / decrease by Rs. 7.72 Lakh (for the year ended 31 March 2019: increase / decrease by Rs. 8.33 lakh) as a result of the change if there is no change in the market risk and other assumptions.

c. Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations. To manage trade receivable and unbilled revenue, the group periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and ageing of such receivables.

Financial instruments that are subject to such risk, principally consist of investments, trade receivables and loans and advances. None of the financial instruments of the group results in material concentration of credit risks. Financial assets for which loss allowance is measured:

	As at	As at	
	31 March 2020	31 March 2019	
	(Rs. / lakh)	(Rs. / lakh)	
Loss allowance measured for trade receivables	81.89	42.03	
Loss allowance measured for advance	0.00	0.20	

Other than financial assets mentioned above, none of the group's financial assets are either impaired or past due, and there were no indications that defaults in payment obligations would occur as exposure to Trade Receivable is diversified.

d. Liquidity risk

Liquidity risk refers to the risk that the Group can not meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per the requirements.

During the year, the Group generated sufficient cash flows from operations to meet its financial obligations as and when they fall due.

The table below provides details regarding the contractual maturities of significant financial liabilities as at:

Contractual maturities of financial liabilities

	less than 1 year (Rs. / lakh)	1 to 5 year (Rs. / lakh)	more than 5 year (Rs. / lakh)	Total (Rs. / lakh)

Valuation technique

Level 1: Quoted prices in the active market. This level of hierarchy includes financial assets that are measured by reference to quoted prices in the active market.

Level 2: Valuation techniques with observable inputs. This level of hierarchy includes items measured using inputs other than quoted prices included within Level 1 that are observable for such items, either directly or indirectly.

Level 3: Valuation techniques with unobservable inputs. This level of hierarchy includes items measured using inputs that are not based on observable market data (unobservable inputs). Fair value determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instruments nor based on available market data.

The fair value of the financial assets are determined at the amount that would be received to sell an asset in an orderly transaction between market participants. The following methods and assumptions were used to estimate the fair values:

- a. Investments in debt mutual funds: Fair value is determined by reference to quotes from the financial institutions, i.e. net asset value (NAV) for investments in mutual funds declared by mutual fund house.
- b. Quoted equity investments: Fair value is derived from quoted market prices in active markets.
- c. Unquoted equity investments: Fair value is derived on the basis of income approach, in this approach the discounted cash flow method is used to capture the present value of the expected future economic benefits to be derived from the ownership of these investments.

Derivative contracts: The Group has not entered into any forward contracts and swaps to manage its exposure as the Company management expect that there are nominal exposure of the Company for foreign exchange and are manageable.
